PROFILE

Passionate and detail-oriented Full-Stack Developer with a solid educational background and hands-on experience from intensive internships. Competent in building complete web and mobile solutions (both backend and frontend), highly adaptable, and focused on innovative problem-solving to deliver high-performance applications.

PROFESSIONAL EXPERIENCE

Full-Stack & Mobile Developer (Internship) April 2026 – July 2026
INVENEO | Marrakesh, Morocco

- Mobile Development: Contributed to developing and optimizing features for the Deelo mobile app using React Native (Expo).
- Web Optimization: Enhanced the Quassama web landing page by integrating responsive UI components.
- Internationalization: Implemented a robust multilingual translation system (i18n) to improve global accessibility.
- Collaboration: Managed version control, code reviews, and seamless team integration using Git / GitHub.

Full-Stack Web Developer (Internship) May 2025 – July 2025
EYSI - Digital Agency | Marrakesh, Morocco

- Frontend Development: Contributed to Furfid (pet insurance platform) by designing a responsive UI with React.js and Tailwind CSS.
- Backend & Database: Modeled the MySQL database and developed a robust API REST using Django (Python).
- Security & Logic: Implemented a secure multi-role system handling authentication, appointments, and reimbursements.
- Collaboration: Managed version control and team code integration efficiently via Git.
